

standard numeric format strings are used to format numbers as strings

benefits :

1 - Readability

2 - Flexibility

try out :

```
namespace project
{
    0 references
    internal class Program
    {
        0 references
        static void Main(string[] args)
        {
            int x = 50;
            int y = 80;
            Console.WriteLine($"{x} + {y} = {x + y:c}");
        }
    }
}
```
